Attached herewith, is a review which appeared in the December 19th issue of InfoWorld. As you will see, the review rated the T/S 2068 excellent in every category. The areas judged were set-up, ease-of-use, performance, documentation and serviceability. InfoWorld reviews hardware and software each week and this is the FIRST REVIEW EVER to be rated excellent in every category. Each of you can take pride in this achievement.

Approximately 25 other reviews are currently being conducted and the feedback from each of these indicates either very good or excellent ratings.

I suggest that we get this information out to the bankers, retailers and consumers.
